

THE BODY AND ITS ILLNESSES: CAPÍTULO 9-ESPAÑOL 1

- Key Content/Concept:**
- Students will know...
 - ✓ Names of the body parts and common illnesses/ailments
 - Students will be able to...
 - ✓ Describe how they feel
 - ✓ Tell which body parts hurt

You are a doctor and you've been asked by the local elementary school to create a poster depicting the body and its major parts (el cuerpo), common illnesses (¿Cómo te sientes?), and typical body pains (¿Qué te duele?). For each section of the poster, you will draw, use clip art, or use magazine pictures to illustrate and label the vocabulary as appropriate in Spanish. Be sure to include many examples within each category.

Areas that you should consider when doing this assignment are overall presentation, creativity, vocabulary and structure usage. Doing just what is asked of you will earn you a C. **In order to excel on this assignment, you must go far beyond the minimum requirements identified here. An A is very difficult to earn.** Obviously, all information must be presented in Spanish. For this assignment, you will earn 2 grades each in **VOCABULARY** and **STRUCTURES**.

After you are finished with the project, please answer the **Self-Assessment/Reflection** questions on a separate piece of paper. There will be a separate grade for this part of the assignment that will go under **REFLECTIONS**.
